

Flood Watch New York

VOLUNTEERS NEEDED!

Help document flooding and storm damage

Flood Watch New York is a program that collects and analyzes crowd-sourced photos of flooding and hazardous weather impacts across New York's varied coasts and waterbodies through the MyCoast NY tool.

Photos are linked to real-time environmental conditions to create reports that help emergency managers, local planners, residents, and state agencies understand our changing environment and make informed decisions.

REPORT TYPES

FLOOD WATCH -
Tracking flooding
across the state

STORM REPORTER -
Documenting damage
after the storm
